SUMMARY

I'm Ahmed, a UX/UI Designer & Frontend Development Enthusiast Computer and Control Systems Engineering Student, Faculty of Engineering, Mansoura University I'm a passionate UX/UI designer with a strong technical background in computer and control systems. I love creating designs that are user-friendly and help businesses connect with their audience, stand out in the market, and show their unique style through colors, fonts, and layouts. I am also learning web development, especially frontend technologies, to combine great design with functionality. I always aim to improve my skills and create digital experiences that are both creative and effective.
